01 / ENGINE & POWERTRAIN

ENGINE BAY — HYUNDAI DIESEL

The **Hyundai DM02VB 4-cylinder diesel engine** was inspected cold and again after warm-up. Cold start is instant and clean; idle is stable and the engine runs smooth through the entire RPM range. A full visual inspection of the engine bay shows **no oil leaks, no coolant seepage, and no fuel weepage**. Belts and hoses are in good condition. Air filter element is clean. No fault codes present. The machine reads **930 hours** on the original working hour meter — consistent with a low-hour, well-maintained machine.

02 / HYDRAULIC SYSTEM

MAIN & AUXILIARY HYDRAULIC PUMPS

The full hydraulic system was operated under load. **All cylinders, hoses, and fittings are dry and leak-free.** The **main hydraulic pump** and **auxiliary hydraulic system** are both reported in excellent condition. Loader lift and dump cycle smoothly with no drift. The **quick coupler / attachment interface** engages and locks correctly. Hydraulic fluid is clean and at the correct level. No weeping at any gland seals or connections.

03 / CAB & OPERATOR STATION

CAB INTERIOR, CONTROLS & INSTRUMENTATION

The **cab interior is clean, dry, and free of damage.** All operator controls — loader levers, auxiliary function switch, foot pedals, steering, and throttle — were verified to function smoothly through their full range. The instrument cluster, hour meter, warning lights, and gauges all operate correctly. The **seat and seatbelt** and **windshield** are both reported in good condition. Road lighting and beacon are functional.

04 / AXLES, FRAME & UNDERCARRIAGE

CHASSIS, PINS, BUSHINGS, AXLES & BRAKES

The axles, frame, and undercarriage were inspected visually and operationally. **Pins and bushings are in good condition with moderate wear** — no significant play was detected. The **axles** and **brakes** are both reported in good condition. The main frame and subframe are straight, sound, and free of any structural damage or cracking. No rust perforation or impact damage anywhere on the chassis. The **4×4 drive engagement** was tested and functions correctly.

05 / TIRES & WHEELS

TIRE CONDITION – 10 - 16.5 NHS

All four tires are in **good condition with approximately 80% tread remaining.** Tires (10 – 16.5 NHS) show even wear across the tread face with no flat spots, cupping, or irregular wear patterns. Sidewalls are intact with no cuts, gouges, or bulge damage. Rims and wheels are straight, clean, and free of cracks or rust.

06 / LOADER ARMS & ATTACHMENTS

LOADER ARMS, LINKAGE, BUCKET & PALLET FORKS

The **loader arms and linkage** operate smoothly through full range with no binding. Pins and bushings at the loader pivot points show **good condition with moderate wear**. The **main bucket** is in good condition with the cutting edge showing moderate wear. The **pallet forks** are in good condition with straight tines and no bending. The attachment interface engages and locks correctly with no excessive play.
